Work & Training Exhibition - Year 11

The Work and Training Exhibition held on 30th January generated much discussion as high numbers of pupils turned up to visit the stands and gain information on local and national training.

The Careers Co-ordinator had invited companies from the local area, including the armed forces, BP Shipping and Southern Electric.

The apprenticeships included marine engineering, child care, electronics and work with horses.

The Exhibition was very productive, with many pupils leaving with armfuls of information and a career plan in mind; overall, it was a great success!

Work together for success...

Try doing homework with a friend. You can bounce ideas off each other. But don't cheat and copy your friend's work! Go together to the LRC to do homework.

Never be tempted to rip things off the internet or from books. If there's one thing teachers hate, it's copying. It will be obvious that the work is not your own, so you're bound to be found out. It could result in you getting a zero mark for your work. Is it worth it?

County Selection

CONGRATULATIONS to the following pupils, who represented Kennet recently at the Wiltshire Cross Country Trials. They have now been selected to run for the Wiltshire Team in the South-West Counties Cross Country Championships being held at Sonar School on Saturday 3rd March 2007.
